Job Objective

To work in an environment that offers opportunities for growth and helps to forefront my skills. The attitude would be to work with commitment and sincerity towards the organization, which in turn would make me able to realize my own vision.

Professional Experience :

Internship with **Navayuga Infotech Pvt. Ltd Jubilee Hills**, (Hyderabad) from June 15, 2025, to August 18, 2025. I was an integral part of our **Cybersecurity & Authentication** team. My internship was focused on the practical application of AI/ML concepts to enhance security protocols.

Role in Organization:

- Assisting in the research and analysis of modern authentication mechanisms.
- Participating in the development and testing of a machine learning model for anomaly detection in user login patterns.
- Contributing to security vulnerability assessments and threat modeling for ongoing projects.
- Gaining hands-on experience with security tools and frameworks under the guidance of senior team members.
- Actively participating in team meetings and demonstrating a strong understanding of security principles.

Extra-Curricular Achievements/Interests

- Playing Shot Put, Javelin Throw, Badminton, Listening to music & Swimming
- Surfing on Internet about new software.
- National Cadet Corps (NCC) 'A' Certificate Comp

Technical Qualification

- **Pursuing** in **B.TECH Computer Science Engineering with AIML** from **D.P.G.I.T.M Gurugram.**
- Intermediate from (**Kendriya Vidyalaya A.A.I Rangpuri**) From **C.B.S.E** Board

Computer Exposure

Operating System	: Windows'98, XP.Window'7,
Software knowledge	: **Python**, **C**, **C++**, **OS** (Operating system), **ML** **(** Machine Learning**)**, **MYSQL** (My Structured Query Language), **D.B.M.S (** Database Management System **)** **M.S Office** (Word, Excel & Power Point) with system Paint Edit Application,
Frontend	: Next.js 14, React, Tailwind CSS, Framer Motion, Three.js, HTML/CSS
Backend	: Node.js, REST APIs, Supabase (PostgreSQL), MySQL, DBMS, Authentication & JWT
AI / ML	: Machine Learning, Anomaly Detection, Deep Learning
DevOps / Tools	: Git, GitHub, Vercel, npm, VS Code, Cursor AI, Linux CLI

Project

- **HR Flow**

— Multi-Tenant HR SaaS Platform -- Next.js, Supabase, Razorpay, face-api.js, Vercel

• Built a production-grade HR SaaS platform with employee management, face recognition attendance, leave tracking, and payroll engine.

• Implemented per-company multi-tenancy, PDF payslip generation, and professional Excel exports using Supabase Row-Level Security.

• Integrated Razorpay for SaaS billing with plan-based access control and upgrade flows.

➢ Health.pro

— AI Fitness & Wellness Platform — *Next.js, TypeScript, Supabase, Vercel*

- Built a full AI fitness platform with personalized dashboard, workout tracking, and health analytics modules.
- Implemented complete mobile responsiveness across all dashboard pages using Tailwind CSS breakpoints.
- Set up Google Search Console, XML sitemap, and SEO metadata; added IntersectionObserver-based scroll animations.
- Fixed Vercel build errors and TypeScript compilation issues for stable production deployment.

➢ ContentAI

— AI Content Generation Platform — *Next.js, Gemini API, Grok API, Three.js*

- Built an AI content tool supporting Hindi, Hinglish, and English — designed specifically for Indian creators.
- Implemented Claude.ai-style dark sidebar UI, Three.js animated landing, session limits, and upgrade modal flow.
- Used Gemini API (primary) with Grok as fallback for high-availability AI responses.

➢ DeepGuard

— AI Deepfake Detection Platform — *Python, Deep Learning, Next.js, Computer Vision*

- Designed an AI-powered deepfake detection system for images and videos — B.Tech AIML college project.
- Scoped full PRD including dataset strategy, CNN/Transformer model architecture, and REST API integration layer.
- Targeted real-world use in media verification and digital forensics with a production-ready deployment plan.

➢ ASK Tech

— Startup Portfolio & Client Projects — *Next.js, Tailwind CSS, Vercel*

- Built and maintain the public-facing ASK Tech portfolio site (ask-phi-five.vercel.app) showcasing all products.
- Delivered client-facing web projects including local business sites, clinic outreach pages, and marketing landing pages.
- Managed Instagram presence (@infoasktech) and created social media content strategy for ContentAI launch.

➢ Melofy

— Music Streaming Web App — *React, Vite, Supabase, Jamendo API*

- Developed a full-featured music streaming app with real API integration, playlist management, and mobile-responsive UI.
- Migrated from a broken JioSaavn API to Jamendo API with zero feature loss and complete UI overhaul for mobile.

➢ Cafe Noir

— Upscale Cafe Brand & Web App — *Next.js 14, Tailwind CSS, Framer Motion, Supabase, Resend*

- Built a full-stack brand and web presence for a fictional upscale Delhi/Gurgaon cafe as a client-style project.
- Developed a 38+ item menu system, table booking widget, SVG logo component, and Resend transactional email integration.
- Implemented scrollytelling animations with Framer Motion and deployed to Vercel with custom domain config.

About Myself

I am a creative, aim oriented and dedicated person who loves to work as a part of a group. I am confident that I would be able to add value to any organization that I am associated with. Commitment, dedication and hard work are my key strengths on which I count upon for my success. An Insatiable hunger for achievement makes me work tirelessly towards my goals.
